

# Envisioning Uncertain Futures

## Scenarios as a Tool in Security, Privacy and Mobility Research

### Content

- Yair Sharan: Foreword
  - Roman Peperhove: Introduction
- I. Scenarios – a methodological tool
- Karlheinz Steinmüller:  
Narrative Scenarios as an Analytical Instrument
  - Robert Gaßner, Karlheinz Steinmüller:  
Scenarios that tell a story. Normative narrative scenarios – an efficient tool for participative innovation-oriented foresight
  - Aharon Hauptmann, Karlheinz Steinmüller:  
Surprising Scenarios. Imagination as a Dimension of Foresight
  - Lars Gerhold, Karlheinz Steinmüller:  
Security 2025: Scenarios as an instrument for dialogue
  - Massimo Moraglio, Hans-Liudger Dienel and Robin Kellermann:  
Didactical functions of dark and bright scenarios: Examples from the European transport industry
- II. Scenarios in practice
- Liisa Luoto, Annika Lonkila:  
The use of SWOT analysis for future scenarios: A case study of privacy and emerging technologies
  - Angela Jain, Sascha Dannenberg:  
The Future of Water Use: Scenarios for Water Management in Telangana – Strengthening Local Governance in the Minor Irrigation Sector
  - Sascha Dannenberg, Angela Jain:  
The Future of Water Use. Construction of the scenarios in the project
  - Björn Theis, Stefan Köppe:  
“Peace Operations 2025” – From Shaping Factors to Scenarios
  - Yair Sharan:  
The FESTOS Project
  - Roman Peperhove:  
The development of FESTOS scenarios
  - Karlheinz Steinmüller:  
The FESTOS scenarios
- III. Synopsis
- Roman Peperhove: Reflections on how to improve future scenarios
  - Roman Peperhove: Conclusion
